- **Prepaid Expense Recognition.** Assign a deferred expense schedule by AP line item. Split payments between prepaid accounts and expense accounts.
- **AP Invoice Automated Approval and Payment.** Set up automatic processes to approve payments or establish an approval process to prioritize or delay payment. Designate an account from which to pay or select a payment method.
- **Use, VAT, and Withholding Tax Support.** Automatically calculate Use and VAT taxes and prepare one or more versions of tax filing reports. Assign a default tax zone to each vendor. This default can be overridden during invoice entry. Tax calculation can include multiple tax items per document line, deduction of tax amount from the price, and tax on tax calculation. Acumatica also supports Withholding Tax calculations.
