

INTER-COMPANY ACCOUNTING

AUTOMATE FINANCIAL REPORTING, VENDOR PAYMENTS, CASH MANAGEMENT, AND INTER-COMPANY GOODS TRANSFERS ACROSS MULTIPLE RELATED COMPANIES

Track financials and create reports for an unlimited number of related companies within your organization. Related companies can share charts of accounts, calendars, currencies, and non-financial data. Acumatica system integration manages inter-company payments in Accounts Payable (AP), centralized invoicing in Accounts Receivable (AR), inter-company journal transactions, inter-company goods transfers, company-specific cash accounts, and more.

KEY FEATURES OF INTER-COMPANY ACCOUNTING

- **Company-based reporting.** Maintain individual ledgers for each company. You can eliminate inter-company transactions automatically when reporting across multiple companies.
- **Centralized payments.** Let companies purchase goods and services that are approved and paid for by other companies. Generate profitability reports that reflect the purchase at the company level.
- **Centralized invoicing.** Initiate sales orders from one company that are invoiced and collected by a centralized accounting team from a different company.
- **Inventory assignment.** Assign warehouses and inventory to specific companies. Inventory transfers initiate inter-company transfers to preserve company-level reporting.
