

NZXT™

SUCCESS STORY

"B2BGateway's cloud based, fully integrated EDI solution for Acumatica provides the communications, data translation and mapping functionality required by NZXT to comply with all our trading partners' EDI requirements. Taking into consideration that Acumatica is a relatively new product and the short time frame required for our EDI implementation, B2BGateway did a great job! Within a month we experienced the many benefits of a seamless, fully integrated EDI solution."

Eugene Chang | Head of Logistics **NZXT**

Customer:
NZXT

Solution:
B2BGateway developed a unique solution that allowed NZXT to send Purchase Orders and import Invoices directly into Acumatica.

Industry:
Supplier of computer cases, cooling, power and lighting supplies for PC enthusiasts.

Location:
Los Angeles, CA, USA

Business Challenge:
Fully integrated EDI solution for Acumatica ERP.

Results:
B2BGateway implemented a unique EDI solution quickly and at low cost. This effectively removed a very large amount of manual processing saving NZXT time, money and labor resources.

NZXT

CUSTOMER PROFILE

Avant-garde and unconventional - NZXT was created by gamers for gamers because they aspire to make a positive difference for people. NZXT believes that there are companies that ship product, and then there are companies that ship innovation. Founded by Johnny Hou and headquartered in Los Angeles, CA, the company is one of the leading manufacturers of computer cases, components, and accessories for the PC enthusiast market since 2004.

ABOUT B2BGATEWAY

B2BGateway is a world leader in the provision of cloud-based, fully-integrated EDI and automated supply chain solutions founded in Boston in 1999 and with additional offices in Europe, Australia and China. B2BGateway offers clients 24/7 customer support with each client having their own designated setup team. B2BGateway's EDI solutions are simple to use, competitively priced, highly effective and can increase profitability by reducing the costs associated with manual data entry errors. BUSINESS CHALLENGE

As NZXT's business flourished throughout North America and around the globe, the company needed a cutting edge, fully-integrated EDI solution that would allow them receive orders directly into their ERP system from customers such as Amazon, BestBuy and Fry's. After purchasing Acumatica's cloud based ERP system from Collins Computing, the next step was to find an EDI provider that could not alone give NZXT the EDI functionality that they needed, but also a provider that could provide full, seamless integration with Acumatica. NZXT also needed the ability to manage growing customer demands, improve supply chain efficiencies, cut costs and have their overall EDI solution implemented within a short time frame. Collins Computing, one of North America's leading Acumatica VARs, recommended that NZXT should use B2BGateway for all their EDI requirements.

SOLUTION

As Acumatica's EDI solution partner, B2BGateway was delighted to be introduced to NZXT by Collins Computing. B2BGateway has been working with Acumatica for approximately two years now and their EDI solution is fully built into the Acumatica users dashboard, giving ease of access to the B2BGateway Client Portal where NZXT can control all their EDI functionality, view reports, add new trading relationships and request support as required. By using B2BGateway's fully integrated EDI solutions for Acumatica, NZXT was able to meet all their trading partners' mandatory requirements and was able to automate the sending and receiving of standard business documents such as purchase orders, invoices and advanced shipment notifications with large scale customers. Today with the help of B2BGateway, NZXT automates the transmission of thousands of documents and tens of thousands of SKUs (product lines) each and every month.

BUSINESS BENEFITS

B2BGateway's EDI solution removes the need for the NZXT staff to manually re-key data; this in turn leads to reduced errors, lower labor costs and faster payments from their customers.
