

YAYPAY AR

FAST, EASY, AND HIGHLY PREDICTABLE ACCOUNTS RECEIVABLE AUTOMATION

Back office financial processes create a bottleneck for getting paid.

- Collection tasks are manual, repetitive, and result in little activity
- Efforts not prioritized using data is wasted on low-value activities
- Manual cash forecasts are time consuming and unreliable

YayPay is a cloud-based predictive AR solution that seamlessly integrates with Acumatica and automates the collection activities related to each of your customers' accounts. You can replace all of your emails, post-it notes, and excel spreadsheets with YayPay's centralized CRM system for AR collections and management.

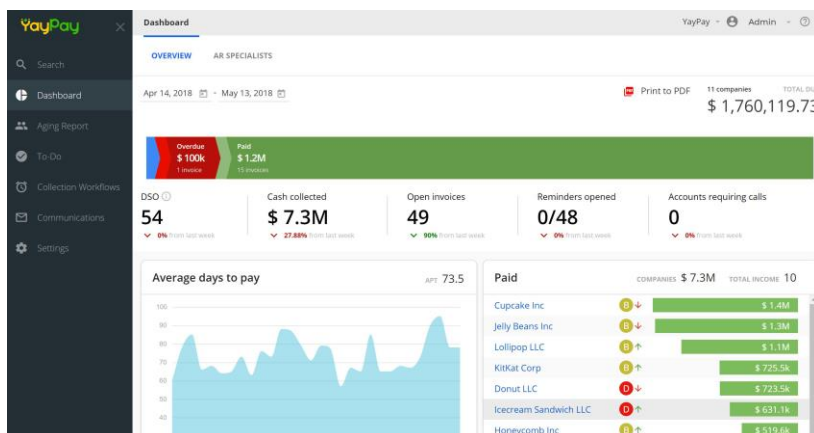

INTUITIVE FOR SMALL BUSINESSES, ROBUST ENOUGH FOR ENTERPRISES

With YayPay, gain visibility at the click of a button to your AR pipeline health, priority accounts that need attention, and cash flow risks. Now, all AR tasks and reporting can be run by a single easy-to-configure administration console.

UNPARALLELED VISIBILITY IN AR PROCESSES FOR FINANCE TEAMS

Key dashboard features provide:

- Real-time DSO
- Dynamic, current AR aging
- Payment prediction
- Payors trends
- AR team efficiency
- Automated collection activity

KEY BENEFITS

GAINING AR VISIBILITY

IMPROVING AR METRICS

- Increase payment speed by up to 34%

INCREASING AR TEAM EFFICIENCY

- Leverage our intelligent CRM, workflow, and automation to increase team efficiency without increasing headcount

SEAMLESS INTEGRATION TO ACUMATICA

- Provide customers with a unified collections automation experience

YAYPAY FEATURES AND CAPABILITIES

Comprehensive AR Dashboards and Reporting

YayPay offers unparalleled visibility in AR processes for finance teams. The YayPay dashboard offers an easy-to-understand view of outstanding invoices and deep insights into your overall AR health and payor trends so that you can exceed your collection targets.

Predictive AR Analytics

Shift AR staff focus to the highest priority accounts based on predictive algorithms. Superior AR management begins with the payor's credit risk assessment and historical payment behavior; Yaypay delivers a comprehensive reporting and automated task generation tool that enhances the AR credit and collections process.

Collections Management CRM

YayPay is a single point of record for all payor information. YayPay integrates discrete payor information from client ERP/CRM and external data sources, and updates in real time, so your business will always have the latest information.

Automated Collections Communications

Easily automate manual collection tasks, including payment reminders, internal escalations, and more. Accomplish more each day without increasing your workload. You are able to view your invoice in YayPay's customer statement portal and immediately make a payment, drastically reducing your DSO.

Streamlined Payments

Make it as easy as possible for your customers to pay invoices through YayPay's modern and secure customer statement portal. Your customers can access the portal through a statement link and select the invoices to be paid by either credit card or ACH.

Complete Communication History

Communication history makes it easier for users to monitor and follow up on outstanding receivables.

THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution on the market today.

STREAMLINE OPERATIONS

Manage your business more efficiently:

- Automate processes
- Control workflows
- Access the system from anywhere on any device—including mobile
- Promote collaboration with all-inclusive user licensing

ADAPTABLE SOLUTION

Add and extend:

- Deploy in-house or in a private or public cloud
- Easily configure your solution to fit your needs
- Add capabilities such as CRM or data visualization at any time
- Extend to other solutions and applications beyond ERP

YOUR BUSINESS ACCELERATED

Get a single version of the truth:

- Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
- No per user pricing – system scales as your business grows
