

Schedule Tasks and Visits

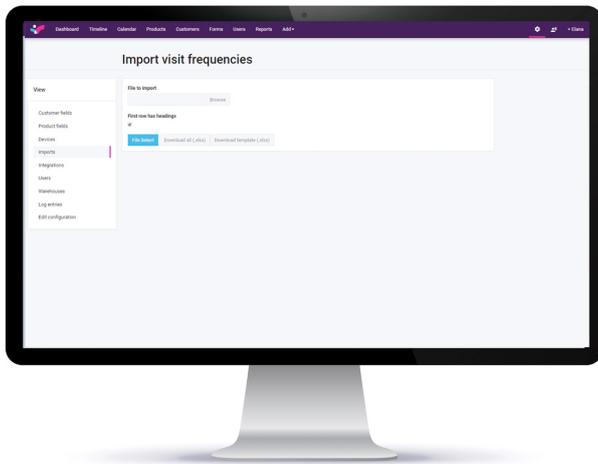

An easily shared calendar without the fuss

Skynamo's calendar features means sales reps can easily plan their day, week or month, and managers can immediately view this information via their Skynamo web portal.

Managers or internal telesales users can also easily add visits or tasks to a rep's calendar from the web portal without having to contact the sales rep to check their availability.

Product Feature Sheets

Plan your day or week better

Skynamo helps reps plan customer visits more efficiently - templates make it easy to import existing call cycles directly into reps' calendars.

You can also get a quick overview of your day or week by viewing tasks and visits scheduled.

- Overdue tasks or visits are pink
- Upcoming tasks or visits are blue
- Completed tasks or visits are grey
