MANUFACTURING EDITION

INTEGRATE PRODUCTION PLANNING WITH CUSTOMER MANAGEMENT AND FINANCIAL REPORTING

Acumatica Manufacturing Edition offers a complete, multi-site manufacturing control and planning system for make-to-stock, make-to-order, engineer-to-order, project centric, job shop, repetitive, and batch manufacturing. Manufacturing Edition integrates with Acumatica's Financial Management, Distribution Management, Customer Management, and Project Accounting products.

Industries We Serve:

Aerospace and Defense	Instruments and Related Products
Automotive	Medical Devices
Electronic Machinery and Components	Transportation Equipment
Metals	Food and Beverage
Industrial Machinery and Equipment	Cosmetics

Get a complete picture of your operations anywhere, anytime, on any device

KEY BENEFITS

COORDINATE ACTIVITIES

- Manage your entire business with complete, real-time information for your operations
- Coordinate labor, machines, and inventory and optimize your company's processes

AVOID OUTGROWING YOUR SOFTWARE
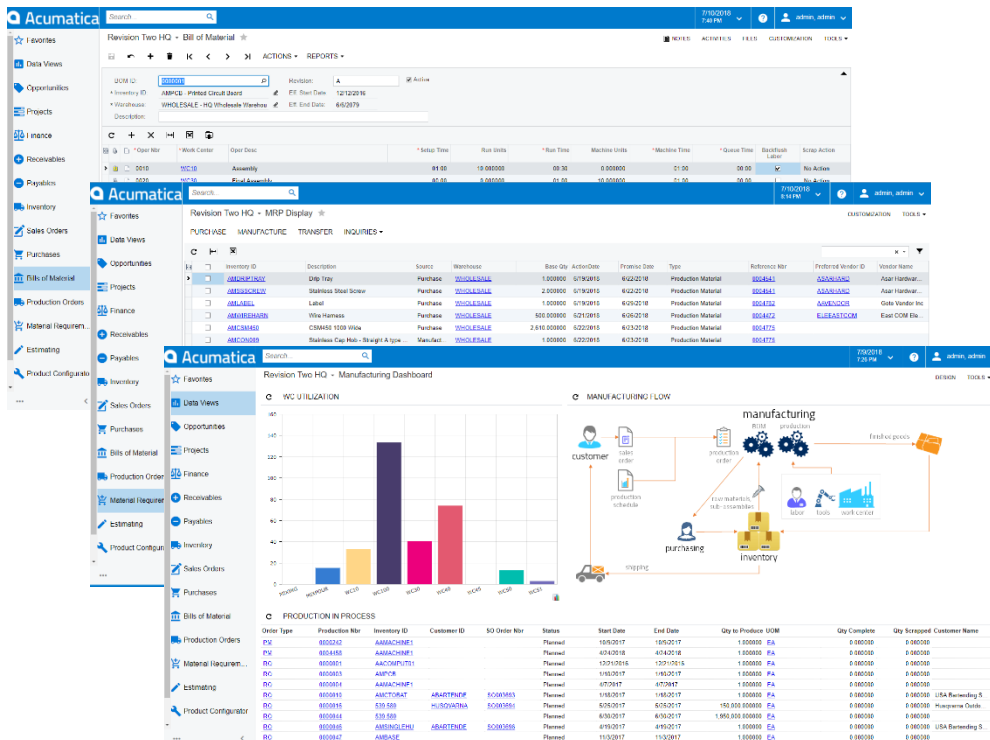

- Adapt the software as your business grows
- Leverage powerful features and functions for:
    - Make-to-Stock
    - Make-to-Order
    - Engineer-to-Order
    - Project Centric
    - Job Shop
    - Repetitive
    - Batch

MEET SCHEDULES

- Respond to demand while optimizing inventory and resources
- Achieve effective cost control with MRP planning

TRACK YOUR COSTS

- Track material and labor costs as you manage your products
- Compare estimated, planned, and standard production costs to actual costs of production

MANUFACTURING EDITION FEATURES AND CAPABILITIES

Advanced Inventory	Create estimates for new or existing items and convert them into bills of materials, production orders, and/or other estimates.
Bill of Materials and Routing	Use this multi-level, dimensional, rules-based system with non-hierarchical feature selections and configuration evaluation on quotes, sales orders, and/or production orders with real-time price and cost rollup.
Production Management	Manage and monitor your shop floor schedule and work center capacity, both finite and infinite. Includes what-if planning capability, capable-to-promise, as well as the ability to schedule employee and/or machine resources.
Material Requirements Planning (MRP)	Manufacture to a project and track all associated costs at the project task level. Compare actual costs to a user-established budget. Production orders can be tied directly as a task to a project or produced to stock.
Estimating	Automate, control, and organize all change requests, plans, and actual changes to a bill of materials. Exercise full control from engineering change request to engineering change order to engineering change notice with approvals throughout each step in the process.
Order Management	Manage sales activities, streamline procurement processes, and automate order fulfillment for internal or external clients.
Advanced Planning and Scheduling	Meet customer demands by setting accurate and reliable delivery dates based on availability of resources with Acumatica's Advanced Planning and Scheduling.
Warehouse Management System (WMS)	Streamline distribution processes with advanced warehouse operations in receiving, inventory management and order fulfillment. Improve customer satisfaction and reduce costs with barcode scanners and mobile devices.
Advanced Financials	Augment Acumatica's base financials with advanced financial capabilities, including GL consolidation, sub-accounts, and automatic revenue recognition.

THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution on the market today.

STREAMLINE OPERATIONS

Manage your business more efficiently:

- Automate processes
- Control workflows
- Access the system from anywhere on any device—including mobile
- Promote collaboration with all- inclusive user licensing

ADAPTABLE SOLUTION

Add and extend:

- Deploy in-house or in a private or public cloud
- Easily configure your solution to fit your needs
- Add capabilities such as CRM or data visualization at any time
- Extend to other solutions and applications beyond ERP

YOUR BUSINESS ACCELERATED

Get a single version of the truth:

- Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
- No per user pricing – system scales as your business grows
