Manage and Monitor your Shop Floor Schedule and Work Center Capacity

Acumatica Manufacturing Edition’s Advanced Planning and Scheduling allows manufacturers to consistently and cost effectively meet customer demands by setting accurate and reliable delivery dates based on actual availability of resources.

Optimize manufacturing productions by integrating key elements, including materials, production capacity, process sequence, and facility schedules, into a powerful, real-time planning and execution application.

Advanced Planning and Scheduling software provides users what-if planning capability, real-time available-to-promise, as well as the ability to accurately schedule employee and/or machine resources. It allows you to more accurately determine requirements for materials and capacity while providing efficient use of production assets.

**FINITE CAPACITY SCHEDULING**

Know how much work can be produced in a given time period, taking into account limitations on various resources.

**ROUGH CUT CAPACITY PLANNING**

Verify that you have sufficient capacity available to meet the capacity requirements for your master schedule.

**WORK CENTER UTILIZATION**

Compare the available hours for a work center to the actual hours that are scheduled for a work center.

**CAPABLE-TO-PROMISE**

Meet customer delivery demands while optimizing machine and tool capacity, as well as all material options.
